

# 16<sup>th</sup> ANNUAL SYMPOSIUM TUMOR HETEROGENEITY AND PLASTICITY IN SPACE AND TIME

TUESDAY, JANUARY 17, 2023  
WEBINAR

9h30 – 9h45	<b>INTRODUCTION</b> Fatima MECHTA-GRIGORIOU – Cancéropôle IDF's Scientific Director
9h45 - 10h30	<b>Recurrent expression patterns of intra-tumor heterogeneity</b> Itay TIROSH, Weizmann Institute of Science, Israel
10h30 - 11h00	<b>Intratumoral heterogeneity of pancreatic neuroendocrine tumors and treatment resistance</b> Jérôme CROS, Inserm, AP-HP Hôpital Beaujon
11h00 - 11h15	<b>E-COFFEE BREAK</b>
11h15 - 11h45	<b>Xist loss, mammary stem cell differentiation and tumorigenicity</b> Raphael MARGUERON, Institut Curie
11h45 - 12h15	<b>Role of tunneling nanotubes in tumor heterogeneity, network formation and therapy resistance</b> Chiara ZURZOLO, Institut Pasteur
<hr/> <b>YOUNG TALENTS AND CANCEROPOLE IDF AWARDS</b>	
12h15 - 12h40	<b>Short presentations from the Canceropole Young Talent Awards winners</b>
12h40 - 14h00	<b>MID DAY BREAK</b>
14h00 - 14h45	<b>Stromal heterogeneity and therapeutic resistance</b> Ruth SCHERZ-SHOUVAL, Weizmann Institute of Science, Israel
14h45 - 15h30	<b>Immune cell commitment and cell fate plasticity in the tumor microenvironment</b> Josh WATERFALL, Institut Curie
15h30 - 16h00	<b>Role of stroma in pancreatic cancer and therapy resistance</b> Lucie PEDUTO, Institut Pasteur
16h00	<b>CONCLUSION</b>
